

# Notes on Building Observability for 99% Developers by Jean Yang

"Building Observability for 99% Developers" by Jean Yan...

- “software is not a planned garden anymore it’s a rainforest”
- Logs are printf debugging
- Everyone tests in production but no one admits it
- Hanselman blog abt 99% dark matter of developers = working in city office on old asp.net, etc
- Once Working in production is default mode of “working”
